

CVH-2000 Version: 1

Chasis para Convertidores de Medios de 14 slots

The LevelOne CVH-2000 media converter chassis is able to host up to 14 media converters. The chassis supports LevelOne FVT-2001/2002/2201/2401 and GVT-2000/2001 Media Converts. All converters are individually secured into the chassis and can be hot-swapped for maximum connection reliability.

The dual power supplies ensure continuous network operation. The Chassis is a standard 19-inch rack-mountable size that easily fits into a server rack.

1. Converter Chassis Slot
2. Power On / Off switch
3. Power Socket

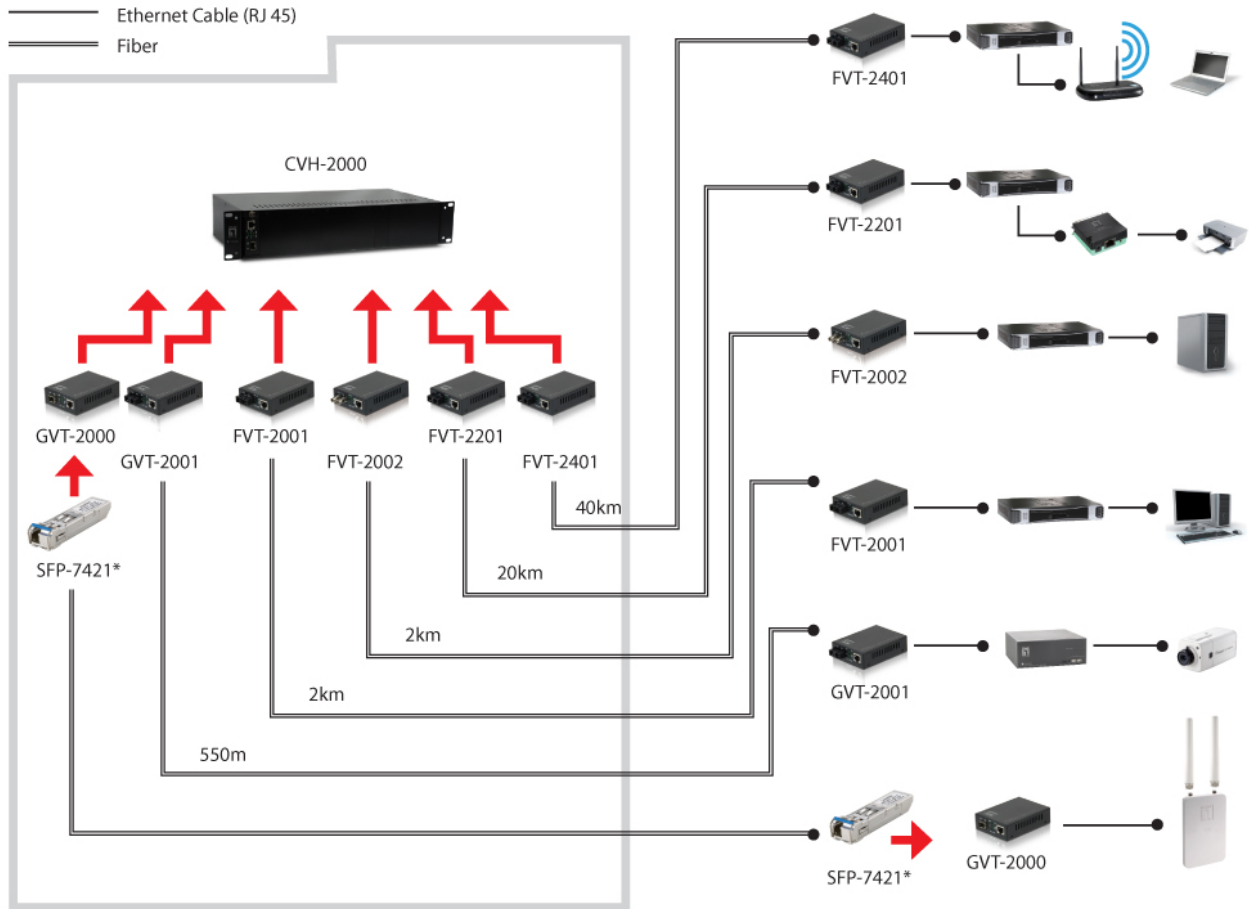

Key Features

- Admite 14 ranuras para distintos tipos de convertidores multimedia
- Admite redundancia de alimentación con entradas de alimentación de CA duales
- Módulo repetidor intercambiable en caliente
- Intervalo de temperatura de funcionamiento entre -10°C ~ 55°C

Diagrama

Dimension Diagram

*In above example diagram, converter modules at local and remote ends should be paired for proper connectivity, and the distance mainly depends on cable and transceiver selection accordingly.
